MOVING FORWARD IN THE COMMUNITY

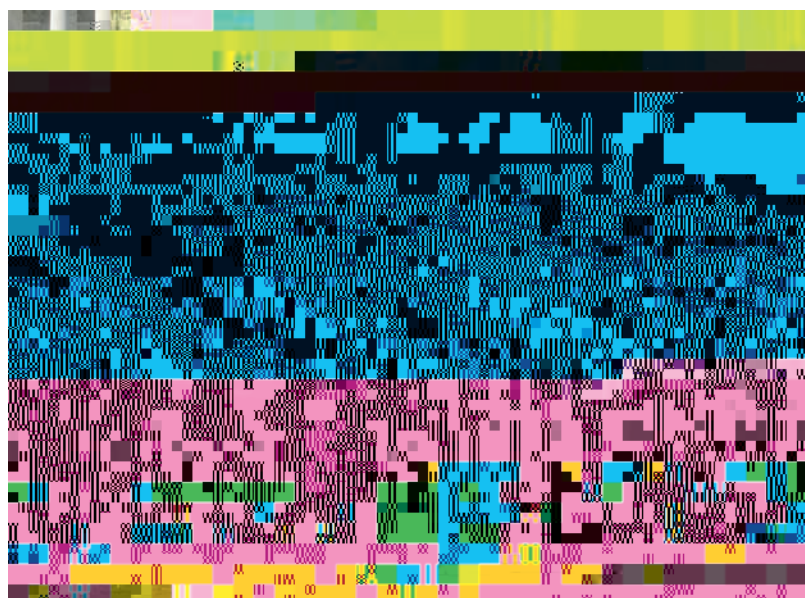

2019 was a year of growth and progress for our community. We have seen many individuals make significant gains in their abilities to live independently and participate in community activities. This progress is a result of the dedication and hard work of our staff and the support of our families and friends.

Our staff has worked tirelessly to provide the highest quality of care and support to our residents. We have implemented new programs and services that have helped our residents to reach their goals and live more fulfilling lives. We are proud of the progress we have made and look forward to continuing to support our residents in the future.

A family member recently told us that his daughter is the happiest she has ever been – even before her illness. This is a testament to the power of our program and the support we provide. We are committed to helping our residents and their families achieve the best possible outcomes and live the lives they deserve.

“Over the course of this past year, each individual has made extraordinary progress transitioning into this home with the support of a dedicated and caring staff and positive connections with friends and family. When one person initially came to the program, she was not able to stand or walk. She is now walking with the aid of a walker. Another individual previously communicated by using a thumbs up or down response. Today this person can speak, is able to answer questions and says grace before meals. A family member recently told us that his daughter is the happiest she has ever been – even before her illness.”
