RIISING TO THE CHALLENGE

LETTER FROM PRESIDENT AND BOARD CHAIR

Dear Friends,

This year's Annual Report is dedicated to the theme of *Rising to the Challenge*. When the age-old tradition of The Educational Council faced the unprecedented challenge posed by the COVID-19 pandemic, we had to adapt quickly to a new normal. The Council continued to serve our members, heard their voices, and worked to address their needs. We are proud of the achievements of our members and staff, and we are committed to continuing to support them in the future.

Let us all embrace a change in perspective. During this time, we have seen the COVID pandemic highlight the need for a more equitable and inclusive society. The CDEIC has been instrumental in providing support and resources to our members. We are committed to continuing to support our members and staff, and we are committed to continuing to support them in the future.

“The Meaningful Whole Life program reinvigorated everyone during the most challenging of times. We lost some people, and it could have just been a horrible year, but because we came up with this idea of helping people reach their hopes and dreams, it turned into a hopeful year. MWWL is really about making sure that the people we serve are valued and respected, and that we have empathy.”

“Through the Meaningful Whole Life program, I have learned how to crochet and started my crocheting business, and I really enjoy it. I have sold 3 hats! I am looking forward to increasing my business on Instagram and making more hats.”
